We Love What We Do

Every trip tells a story: whether we're taking you to an important medical appointment, helping you enjoy a day out with friends, or simply making your weekly shopping easier, our transport is about much more than kilometres travelled.

Each of our drivers, volunteers and office team are passionate about every journey being welcoming, safe and enjoyable. We are privileged to meet incredible

people and thank you for allowing us to be part of your lives. Your smiles, conversations and kind words remind us why community transport is so important.

With the new **Support at Home program** underway, there has been plenty of discussion about how aged care services will evolve. One thing is unchanged: **you choose who provides your transport services.**

Eligible for transport through Support at Home? You can nominate someone that understands your local community and values your patronage more than just getting you from A to B.

Community transport helps people stay connected, maintain independence, and keep doing what matters. If you have questions about your transport options within a Support at Home Package or would like assistance understanding your choices, our friendly team is only a phone call away. We can work with your chosen package provider to **provide the transport you need: 02 4351 0671.**

**In a retirement
village or know
someone who is?**

We're visiting villages and independent living communities to explain our services, including eligibility and funding options, social outings and group activities, Support at Home program changes, and how to register and book transport with us.

Please call Bianca to arrange our visit: 02 4351 0671.
